### *About Madame Web:*

*In a switch from the typical genre, Madame Web tells the standalone origin story of one of Marvel publishing's most enigmatic heroines. The suspense-driven thriller stars Dakota Johnson as Cassandra Webb, a paramedic in Manhattan who develops the power to see the future... and realizes she can use that insight to change it. Forced to confront revelations about her past, she forges a relationship with three young women bound for powerful destinies... if they can all survive a deadly present.*
